

Fostering Imagination

A special experience through Voices' Dream BIG Days.

Creating unforgettable childhood experiences filled with wonder, adventure, and joy.

Children in foster care need more than safety. They need a childhood.

For many children in foster care, life is shaped by uncertainty, change, court hearings, appointments, and decisions made by adults. Experiences that may seem simple to others can become deeply meaningful. A special day away creates room for joy, belonging, confidence, and exposure to new places and possibilities that a child may not otherwise experience.

Why Voices

Through Dream BIG Days, Voices creates meaningful experiences that build connection, confidence, curiosity, and childhood joy. These opportunities allow children to explore something new, discover what excites them, and begin to imagine what else might be possible.

What one day can make possible

Belonging

Children feel included, valued, and part of something special.

Anticipation

Something to look forward to brings hope and excitement.

Joy

Laughter, exploration, and new experiences give children the chance to simply be kids.

Core Memories

Positive experiences create lasting memories, build confidence, and help children see new possibilities for themselves.

“These experiences do not erase the hard parts of a child's story. They help make sure those hard parts are not the only parts.”

Help us create moments of wonder, belonging, and childhood joy.
